Dear Paula Williamson,

#### Introduction:

1. Please provide an exhibit that shows the projection of future and lifetime loss ratios based on your assumptions for trend, persistency, aging, interest and anything else that is relevant. The projections should be separate by plan.

2. Am I correct that the proposed rate tables shown in item 1 and item 2 on the rate/rule schedule, under premium rate sheets in the supporting documentation schedule, and in Exhibit 5 of the actuarial memorandum are all the same? I do note that the current rates are also in exhibit 5 of the actuarial memorandum.

#### **Conclusion:**

Sincerely, Charles DeWeese

#### Actuarial Memorandum

### 1) PURPOSE AND SCOPE

The purpose of this memorandum is to satisfy the annual filing requirements and to request a 4.5% rate increase on all plans except for Plans F-HD and G-HD, for which we are not requesting an increase at this time. The requested premiums are to be effective May 1, 2022. The requested rates reflect the changes in the Medicare Part A deductible and copayments and the cost and utilization trends on Medicare Part B. The claims cost estimates supporting this filing reflect the 2022 and estimated 2023 benefit levels. This filing pertains only to the policy forms listed in the heading. This rate filing is not intended to be used for other purposes.

### 2) POLICY INFORMATION

These are guaranteed renewable individual policies which are actively being sold. Premiums were calculated on an attained age basis and policies are issued to individuals aged 65 and over who are eligible for Medicare. Other policy provisions can be found in the contract.

#### 3) SERVICES COVERED

The services covered are specified by standardized Medicare Supplement plans as described in the NAIC Medicare Supplement Insurance Model Regulation (the "2010 Standard Plans").

#### 4) ACTUAL EXPERIENCE FOR HUMANA'S 2010 PLANS

Exhibit 1 attached displays the actual Rhode Island and Nationwide experience from the inception of the plans in June 2010 through March 31, 2021 for the 2010 plans only. Incurred claims through March 31, 2021 have been based on the actual runoff of paid claims through June 30, 2021. The loss ratio for a given year is defined as incurred claims divided by premiums. Discounting is defined as the present value of experience as of the first year of issue using a 6.0% annual interest rate assumption.

Future experience was projected based on experience through March 31, 2021 with appropriate adjustments for lapse, trend, aging and selection factors. Since the Rhode Island experience is not fully credible, future claim experience was projected based on a credibility weighting with Nationwide experience, with Rhode Island receiving approximately 65%

credibility. Credibility was calculated based on the last 24 months of experience. The results of these projections are provided in Exhibit 2. The future loss ratios, with and without discounting, are projected to be 73.2% and 75.3%, respectively.

### 5) DETERMINATION OF RATE CHANGE RECOMMENDATION

Our best judgment is to request the following rate change by plan for the 2010 plans in Rhode Island:

А	4.5%
В	4.5%
С	4.5%
F	4.5%
F-HD	0.0%
G	4.5%
G-HD	0.0%
Κ	4.5%
L	4.5%

These increases are based on a review of both Nationwide and Rhode Island experience, rating characteristics of the State of Rhode Island, trends, projected loss ratios, and underwriting objectives.

Plans A, B, C, F, G, K, and L are receiving a rate increase of 4.5% which is 1.0% below trend.

Plans F-HD and G-HD have shown very good experience to date Nationwide. For this reason, we are not requesting an increase for Plans F-HD and G-HD at this time.

### 6) PROJECTED LOSS RATIOS WITH A RATE CHANGE EFFECTIVE MAY 1, 2022

The projected Rhode Island experience with the requested rate changes effective May 1, 2022 is also provided in Exhibit 2. In 2022, premiums are increased upon approval from the state, no sooner than 12 months after the most recent approved increase. The projected loss ratios for 2021 and 2022 are 65.4% and 66.6%, respectively. The projected loss ratios over all years (past and future), with and without discounting, are 70.7% and 71.8%, respectively. The projected loss ratios for future years with and without discounting are 71.3% and 73.1%, respectively. The results of these projections can be found in Exhibit 2.

#### 7) ASSUMPTIONS USED IN PRICING

#### A. Morbidity Basis

Average claim costs and aging factors for these plans were based on a review of actual experience of state and nationwide standardized Medicare Supplement plans, and may include other company experience and external sources.

### **B.** Trend Assumptions

Trend assumptions are based on our best judgment, using a review of recent trends on Humana's Medicare Supplement policies and Medicare benefit levels, including the following:

- An increase in Medicare Part A deductible from \$1,484 in 2021 to \$1,556 in 2022.
- An increase in Medicare Part B deductible from \$203 in 2021 to \$233 in 2022.

Our estimated annual claims trend excluding the effects of aging is 5.5%. For more detail on historical and projected trends, please see Exhibit 4.

### **C. Aging Assumptions**

The projected premium and claims assume an annual increase due to aging of 2.5%. Since the rate structure is based on attained age, this does not have a material effect on the requested rates.

### **D. Underwriting Assumptions**

For these plans, Humana employs short form underwriting when the application is made outside of open enrollment or a guaranteed issue period. Humana may also use external data sources and telephonic follow-up. Claim costs have been adjusted for new members subject to underwriting by a factor of 0.73 for policy year 1 and 0.865 in policy year 2. Policy years 3 and beyond have no adjustment factor. It is assumed that 15.0% of new members are underwritten. This results in effective adjustments of 0.96 and 0.98 for policy years 1 and 2, respectively.

### **E.** Total Termination Assumptions

The termination assumptions used in the future projections represent termination rates before the effect of rate increases. The rates were based on actual termination rates for each plan. The projections in this filing use a base termination rate of 15% before the effect of rate increases. Mortality is included in this base termination rate. Additional terminations due to rate increases are assumed, when appropriate, based on the table in Exhibit 3.

### 8) MARKETING METHOD

These products will be marketed by licensed agents in addition to self-enrollment online where approved by the State.

### 9) RATE SHEETS AND RATING FACTORS

Rates vary by attained age, gender, underwriting class (tobacco usage and disability status), and geographic region. Classification of geographic regions will be periodically reviewed and modified as necessary upon approval from the state. The current base premium rates and the requested base premium rates effective May 1, 2022 are attached in Exhibit 5. Rating factors used to develop these rates can be found in Exhibit 3. For area specific rates, the premium rates in Exhibit 5 are adjusted by the area factors shown in Exhibit 6.

#### **10) ONLINE ENROLLMENT DISCOUNT**

In the State of Rhode Island, Humana has implemented a 6% discount for policyholders that complete and submit an application online.

#### 11) MINIMUM REQUIRED LOSS RATIO

The projection results indicate that these plans are expected to exceed the minimum loss ratio requirements required by law: 65% by the third policy year, 65% future lifetime, and 65% lifetime. Humana may revise rates in the future (subject to state approval), but in no event will the combination of historical and projected loss ratios at the time of the rate change result in a lifetime projected loss ratio below the minimum standard of 65%.

#### **12) ADDITIONAL EXHIBITS**

Exhibit 7 shows membership by plan for both Rhode Island and Nationwide. Exhibit 8 shows a history of Rhode Island rate increases.

#### **13) ACTUARIAL CERTIFICATION**

I, Lydia Calkins, am an Actuary, Senior Products with Humana Inc. I am a member of the American Academy of Actuaries and meet its Qualification Standards for Statements of Actuarial Opinion. The purpose of this statement is to demonstrate compliance of this rate filing with the regulations of the State of Rhode Island.

In preparing my opinion, I have relied upon the accuracy of the underlying records and data prepared under my direction.

The assumptions are reasonable based on available information and my best judgment.

The premium rates are reasonable in relation to the benefits provided and are not excessive, inadequate or unfairly discriminatory.

The anticipated lifetime loss ratio, the anticipated future lifetime loss ratio and the third year expected loss ratio all exceed the required 65% loss ratio. Loss ratio as used here means the ratio of the present value of incurred claims to the present value of earned premiums.

Actuarial methods, considerations and analyses used in forming my opinion conform to the Actuarial Standards of Practice as promulgated by the Actuarial Standards Board of the American Academy of Actuaries. These standards form the basis of this opinion.

[1] Base rates presented are discounted rates based on monthly ACH/credit card payment modes. For monthly coupon book payment mode there is an additional \$2 per month. Other fees or discounts may apply in the future, including non-monthly modes and policy issue.

A 6% Online Enrollment Discount will be applied where members complete and submit an application online.

[2] Standard Rate applies to tobacco users and beneficiaries originally eligible due to disability.

[3] Preferred rate applies to non-users of tobacco not originally eligible due to disability. For issues during open enrollment or guaranteed issue, the preferred rates apply to all non-tobacco users.

Humana Insurance Company reviews claims experience of its Medicare Supplement business to ensure the ability to meet its obligation to pay future claims. Healthcare costs tend to increase over time due to inflation and utilization trends of consumers. We are proposing a 4.5% premium increase on all Policy Forms except for Plans F-HD and G-HD, for which we are requesting a rate hold, to the Rhode Island Department of Insurance which will not be implemented until approval is received from the Department, no earlier than May 1, 2022.

These rates will affect 739 current enrollees in addition to any new enrollees.
