

Overview	
Measure Name	Rate of Race Data Completeness – ACO
Steward	EOHHS (Modified by the Quality Measure Alignment Taskforce)
NQF Number	N/A
Data Sources	Numerator source: ACO Denominator source: Payer

Population Health Impact
Complete, beneficiary-reported race data are critically important for identifying, analyzing, and addressing disparities in health and health care access and quality.

Measure Summary	
Description	The percentage of ACO attributed members with self-reported race data that was collected by an ACO in the measurement year.
Numerator	ACO attributed members with self-reported race data that was collected by an ACO during the measurement year
Denominator	ACO attributed members in the measurement year

Eligible Population	
Age	ACO attributed members 0 to 64 years of age as of December 31 of the measurement year
Continuous Enrollment	The measurement year
Allowable Gap	No more than one gap in enrollment of up to 45 days during the measurement year
Anchor Date	December 1 st of the measurement year
Event/Diagnosis	None

Definitions	
Complete Race Data	<p>Complete race data is defined as:</p> <p>At least one (1) valid race value (valid race values are listed in Attachment 1).</p> <ul style="list-style-type: none"> ○ If value is “UNK” it will <u>not</u> count toward the numerator. ○ If value is “ASKU,” it will count toward the numerator. ○ If value is “DONTKNOW,” it will count toward the numerator. ○ Each value must be self-reported.

Data Collection	<p>Race data may be collected:</p> <ul style="list-style-type: none"> • over the phone, electronically (e.g. a patient portal), in person, by mail, etc.; • from an acute hospital; • must include one or more values in Attachment 1
Measurement Year	Measurement Years correspond to Calendar Years
Rate of Race Data Completeness	$(\text{Numerator Population} / \text{Eligible Population}) * 100$
Self-Reported Data	<p>Race data must be self-reported. Race data that derived using an imputation methodology must not be included. For the purposes of this measure specification, data is considered to be self-reported if it has been provided by either: (a) the individual, or (b) a person who can act on the individual's behalf (e.g., parent, spouse, authorized representative, guardian, conservator, holder of power of attorney, or health-care proxy).</p> <p>Self-reported race data that has been rolled-up or transformed for reporting purposes may be included. For example, if an ACO's data systems include races that are included in HHS' data collection standards and an individual self-reports their race as "Samoan", then the ACO can report the value of "Native Hawaiian or Other Pacific Islander" since the value of Samoan is not a valid value in Attachment 1.</p>

Administrative Specification	
Denominator	The eligible population
Numerator	<p>For members in the denominator, identify those with complete race data, defined as:</p> <p>At least one (1) valid race value (valid race values are listed in Attachment 1).</p> <ul style="list-style-type: none"> ○ If value is "UNK," it will <u>not</u> count toward the numerator. ○ If value is "ASKU," it will count toward the numerator. ○ If value is "DONTKNOW," it will count toward the numerator. ○ Each value must be self-reported.
Exclusions	If value is UTC, the member is excluded from the denominator.

Additional Measure Information	
Completeness Calculations	Completeness is calculated for each individual ACO.

Attachment 1. Race: Accepted Values

	Description	Valid Values	Notes
Race	American Indian/Alaska Native	1002-5	
	Asian	2028-9	
	Black/African American	2054-5	
	Native Hawaiian or other Pacific Islander	2076-8	
	White	2106-3	
	Other Race	OTH	
	Choose not to answer	ASKU	Member was asked to provide their race, and the member actively selected or indicated that they “choose not to answer.”
	Don’t know	DONTKNOW	Member was asked to provide their race, and the member actively selected or indicated that they did not know their race.
	Unable to collect this information on member due to lack of clinical capacity of member to respond (e.g. clinical condition that alters consciousness)	UTC	Unable to collect this information on member due to lack of clinical capacity of member to respond.
	Unknown	UNK	The race of the member is unknown since either: (a) the member was not asked to provide their race, or (b) the member was asked to provide their race, and a response was not given. Note that a member actively selecting or indicating the response “choose not to answer” is a valid response, and should be assigned the value of ASKU instead of UNK.

Overview	
Measure Name	Rate of Hispanic or Latino Ethnicity Data Completeness – ACO
Steward	EOHHS (Modified by the Quality Measure Alignment Taskforce)
NQF Number	N/A
Data Sources	Numerator source: ACO Denominator source: Payer

Population Health Impact
Complete, beneficiary-reported ethnicity data are critically important for identifying, analyzing, and addressing disparities in health and health care access and quality.

Measure Summary	
Description	The percentage of ACO attributed members with self-reported Hispanic or Latino ethnicity data that was collected by an ACO in the measurement year.
Numerator	ACO attributed members with self-reported Hispanic or Latino ethnicity data that was collected by an ACO during the measurement year
Denominator	ACO attributed members in the measurement year

Eligible Population	
Age	ACO attributed members 0 to 64 years of age as of December 31 of the measurement year
Continuous Enrollment	The measurement year
Allowable Gap	No more than one gap in enrollment of up to 45 days during the measurement year
Anchor Date	December 1 st of the measurement year
Event/Diagnosis	None

Definitions	
Complete Hispanic or Latino Ethnicity Data	<p>Complete Hispanic ethnicity data is defined as:</p> <p>One (1) valid Hispanic or Latino ethnicity value (valid Hispanic or Latino ethnicity values are listed in Attachment 2).</p> <ul style="list-style-type: none"> ○ If value is “UNK,” it will <u>not</u> count toward the numerator. ○ If value is “ASKU it will count toward the numerator.

	<ul style="list-style-type: none"> ○ If value is “DONTKNOW” it will count toward the numerator. ○ Each value must be self-reported.
Data Collection	<p>Hispanic or Latino ethnicity data may be collected</p> <ul style="list-style-type: none"> ● over the phone, electronically (e.g. a patient portal), in person, by mail, etc. ● from an acute hospital; ● must include one value in Attachment 2
Measurement Year	Measurement Years correspond to Calendar Years
Rate of Hispanic or Latino Ethnicity Data Completeness	$(\text{Numerator Population} / \text{Eligible Population}) * 100$
Self-Reported Data	<p>Hispanic or Latino ethnicity data must be self-reported. Hispanic or Latino ethnicity data that is a result of an imputation methodology must not be included. For the purposes of this measure specification, data is considered to be self-reported if it has been provided by either: (a) the individual, or (b) a person who can act on the individual’s behalf (e.g., parent, spouse, authorized representative, guardian, conservator, holder of power of attorney, or health-care proxy).</p> <p>Self-reported Hispanic or Latino ethnicity data that has been rolled-up or transformed for reporting purposes may be included. For example, if an ACO’s data systems include ethnicities that are included in HHS’ data collection standards (i.e., Mexican; Puerto Rican; Cuban; Another Hispanic, Latino/a, or Spanish origin) and an individual self-reports their ethnicity as “Puerto Rican”, then the ACO can report the value of “Hispanic or Latino” since the value of Puerto Rican is not a valid value in Attachment 2.</p>

Administrative Specification	
Denominator	The eligible population
Numerator	<p>For members in the denominator, identify those with complete Hispanic or Latino ethnicity data, defined as: One (1) valid Hispanic or Latino ethnicity value (valid Hispanic or Latino ethnicity values are listed in Attachment 2).</p> <ul style="list-style-type: none"> ○ If value is “UNK,” it will <u>not</u> count toward the numerator. ○ If value is “ASKU,” it will count toward the numerator. ○ If value is “DONTKNOW,” it will count toward the numerator. ○ Each value must be self-reported.

Exclusions	If value is UTC, the member is excluded from the denominator.
-------------------	---

Additional Measure Information	
Completeness Calculations	Completeness is calculated for each individual ACO.

Attachment 2. Hispanic Ethnicity: Accepted Values

	Description	Valid Values	Notes
Hispanic or Latino Ethnicity	Hispanic or Latino	2135-2	
	Not Hispanic or Latino	2186-5	
	Choose not to answer	ASKU	Member was asked to provide their ethnicity, and the member actively selected or indicated that they “choose not to answer”.
	Don’t know	DONTKNOW	Member was asked to provide their ethnicity, and the member actively selected or indicated that they did not know not know their ethnicity.
	Unable to collect this information on member due to lack of clinical capacity of member to respond (e.g. clinical condition that alters consciousness).	UTC	Unable to collect this information on member due to lack of clinical capacity of member to respond
	Unknown	UNK	The ethnicity of the member is unknown since either: (a) the member was not asked to provide their ethnicity, or (b) the member was asked to provide their ethnicity, and a response was not given. Note that a member actively selecting or indicating the response “choose not to answer” is a valid response, and should be assigned the value of ASKU instead of UNK.
