Average % increase: 0.0%

Humana Insurance Company reviews claims experience of its Medicare Supplement business to ensure the ability to meet its obligation to pay future claims. Healthcare costs tend to increase over time due to inflation and utilization trends of consumers. We are proposing a rate hold on all Policy Forms to the Rhode Island Department of Insurance which will not be implemented until approval is received from the Department, no earlier than June 1, 2024.

These rates will affect 605 current enrollees in addition to any new enrollees.
