Other fees or discounts may apply in the future, including non-monthly modes and policy issue.

A 6% Online Enrollment Discount will be applied where members complete and submit an application online.

[2] Standard Rate applies to tobacco users and beneficiaries originally eligible due to disability.

[3] Preferred rate applies to non-users of tobacco not originally eligible due to disability. For issues during open enrollment or guaranteed issue, the preferred rates apply to all non-tobacco users.

[4] Geographic area factors are also applied.

[5] Members who enroll prior to age 65 will remain in the same age category for the duration of the policy.

Guaranteed Renewable for Life

Actuarial Memorandum

1) PURPOSE AND SCOPE

The purpose of this memorandum is to satisfy the annual filing requirements and to request a rate hold on Plans A, B, C, F, F-HD, G, G-HD, K, and L. The requested premiums are to be effective July 1, 2025. The requested rates reflect the changes in the Medicare Part A deductible and copayments and the cost and utilization trends on Medicare Part B. The claims cost estimates supporting this filing reflect the 2025 and estimated 2026 benefit levels. This filing pertains only to the policy forms listed in the heading. This rate filing is not intended to be used for other purposes.

2) POLICY INFORMATION

These are guaranteed renewable individual policies which are actively being sold. Premiums were calculated on an attained age basis and policies are issued to individuals who are eligible for Medicare. Other policy provisions can be found in the contract.

3) SERVICES COVERED

The services covered are specified by standardized Medicare Supplement plans as described in the NAIC Medicare Supplement Insurance Model Regulation (the “2010 Standard Plans”).

4) ACTUAL EXPERIENCE FOR HUMANA’S 2010 PLANS

Exhibit 1 attached displays the actual Rhode Island and Nationwide experience from the inception of the plans in June 2010 through July 31, 2024 for the 2010 plans only. Incurred claims through July 31, 2024 have been based on the actual runoff of paid claims through October 31, 2024. The loss ratio for a given year is defined as incurred claims divided by premiums. Discounting is defined as the present value of experience as of the first year of issue using a 6.0% annual interest rate assumption.

Future experience was projected based on experience through July 31, 2024 with appropriate adjustments for lapse, trend, aging and selection factors. Since the Rhode Island experience is not fully credible, future claim experience was projected based on a credibility weighting with Nationwide experience, with Rhode Island receiving approximately 39% credibility. Credibility was calculated based on the last 12 months of experience. The results of these

projections are provided in Exhibit 2. The future loss ratios, with and without discounting, are projected to be 87.2% and 91.6%, respectively.

5) DETERMINATION OF RATE CHANGE RECOMMENDATION

Our best judgment is to request the following rate change by plan for the 2010 plans in Rhode Island:

A	0.0%
B	0.0%
C	0.0%
F	0.0%
F-HD	0.0%
G	0.0%
G-HD	0.0%
K	0.0%
L	0.0%

These increases are based on a review of both Nationwide and Rhode Island experience, rating characteristics of the State of Rhode Island, trends, projected loss ratios, and underwriting objectives.

Plans A, B, C, F, F-HD, G, G-HD, K, and L are receiving a rate hold.

6) PROJECTED LOSS RATIOS WITH A RATE CHANGE EFFECTIVE JULY 1, 2025

The projected Rhode Island experience with the requested rate changes effective July 1, 2025 is also provided in Exhibit 2. In 2025, premiums are increased upon approval from the state, no sooner than 12 months after the most recent approved increase. The projected loss ratios for 2024 and 2025 are 68.7% and 75.3%, respectively. The projected loss ratios over all years (past and future), with and without discounting, are 75.0% and 80.1%, respectively. The projected loss ratios for future years with and without discounting are 87.2% and 91.6%, respectively. The results of these projections can be found in Exhibit 2.

7) ASSUMPTIONS USED IN PRICING

A. Morbidity Basis

Average claim costs and aging factors for these plans were based on a review of actual experience of state and nationwide standardized Medicare Supplement plans, and may include other company experience and external sources.

B. Trend Assumptions

Trend assumptions are based on our best judgment, using a review of recent trends on Humana's Medicare Supplement policies and Medicare benefit levels.

Our estimated annual claims trend excluding the effects of aging is 6.9% for 2024 and 8.1% for 2025+. For more detail on historical and projected trends, please see Exhibit 4.

C. Aging Assumptions

The projected premium and claims assume an annual increase due to aging of 2.5%. Since the rate structure is based on attained age, this does not have a material effect on the requested rates.

D. Underwriting Assumptions

For these plans, Humana employs short form underwriting when the application is made outside of open enrollment or a guaranteed issue period. Humana may also use external data sources and telephonic follow-up. Claim costs have been adjusted for new members subject to underwriting by a factor of 0.73 for policy year 1 and 0.865 in policy year 2. Policy years 3 and beyond have no adjustment factor. It is assumed that 15.0% of new members are underwritten. This results in effective adjustments of 0.96 and 0.98 for policy years 1 and 2, respectively.

E. Total Termination Assumptions

The termination assumptions used in the future projections represent termination rates before the effect of rate increases. The rates were based on actual termination rates for each plan. The projections in this filing use a base termination rate of 15% before the effect of rate increases. Mortality is included in this base termination rate. Additional terminations due to rate increases are assumed, when appropriate, based on the table in Exhibit 3.

F. Rates for Members Under Age 65

The rates for members under age 65 are set equal to 2.75 times the age 65 rates.

8) MARKETING METHOD

These products will be marketed by licensed agents in addition to self-enrollment online where approved by the State.

9) RATE SHEETS AND RATING FACTORS

Rates vary by attained age, gender, underwriting class (tobacco usage and disability status), and geographic region. Classification of geographic regions will be periodically reviewed and modified as necessary upon approval from the state. The current base premium rates and the requested base premium rates effective July 1, 2025 are attached in Exhibit 5. Rating factors used to develop these rates can be found in Exhibit 3. For area specific rates, the premium rates in Exhibit 5 are adjusted by the area factors shown in Exhibit 6.

10) ONLINE ENROLLMENT DISCOUNT

In the State of Rhode Island, Humana has implemented a 6% discount for policyholders that complete and submit an application online.

11) MINIMUM REQUIRED LOSS RATIO

The projection results indicate that these plans are expected to exceed the minimum loss ratio requirements required by law: 65% by the third policy year, 65% future lifetime, and 65% lifetime. Humana may revise rates in the future (subject to state approval), but in no event will the combination of historical and projected loss ratios at the time of the rate change result in a lifetime projected loss ratio below the minimum standard of 65%.

12) ADDITIONAL EXHIBITS

Exhibit 7 shows membership by plan for both Rhode Island and Nationwide. Exhibit 8 shows a history of Rhode Island and Nationwide rate increases.

13) ACTUARIAL CERTIFICATION

I, Lydia Calkins, am an Associate Director, Senior Products with Humana Inc. I am a member of the American Academy of Actuaries and meet its Qualification Standards for Statements of Actuarial Opinion. The purpose of this statement is to demonstrate compliance of this rate filing with the regulations of the State of Rhode Island.

In preparing my opinion, I have relied upon the accuracy of the underlying records and data prepared under my direction.

The assumptions are reasonable based on available information and my best judgment.

The premium rates are reasonable in relation to the benefits provided and are not excessive, inadequate or unfairly discriminatory.

The anticipated lifetime loss ratio, the anticipated future lifetime loss ratio and the third year expected loss ratio all exceed the required 65% loss ratio. Loss ratio as used here means the ratio of the present value of incurred claims to the present value of earned premiums.

Actuarial methods, considerations and analyses used in forming my opinion conform to the Actuarial Standards of Practice as promulgated by the Actuarial Standards Board of the American Academy of Actuaries. These standards form the basis of this opinion.

Humana Insurance Company reviews claims experience of its Medicare Supplement business to ensure the ability to meet its obligation to pay future claims. Healthcare costs tend to increase over time due to inflation and utilization trends of consumers. We are proposing a rate hold on all Policy Forms to the Rhode Island Department of Insurance which will not be implemented until approval is received from the Department, no earlier than July 1, 2025.

These rates will affect 561 current enrollees in addition to any new enrollees.
