

Company Name: UnitedHealthcare Insurance Company

NAIC Company Code: 79413

Market Segment: Pre-Standardized Medicare Supplement Plans (plans issued prior to 1992)

SERFF Tracking Number: UHLC-134267008

Scope and Range of the Rate Increase

2025 rate increases have been proposed for the AARP Pre-Standardized Medicare Supplement Insurance Plans for members residing in Rhode Island. These rate actions are projected to apply to 6 members. The new monthly premium rates will apply to members beginning June 1, 2025.

The average rate increase for these plans is expected to be 14.9%. Additional premium changes may occur due to changes in policyholder discounts.

Our calculated needed national average increase is 23.8%, but we are proposing a 14.9% average rate increase in your state to help mitigate the member impact at this time. We will continue to work hard to keep premium rates as low as possible for all members.

Increases in Medical Costs

There are many different health care cost trends that contribute to increases in the Medicare health care spending each year. Some of the key health care cost trends that have affected this year's rate increases include:

- **Increasing Cost of Medical Services:** Annual increases in reimbursement rates to health care providers.
- **Increasing Utilization:** The number of office visits and other medical services continues to grow. In addition, total health care spending will vary by the intensity of care and use of different types of health services.
- **Increases in Medicare Deductibles:** Medicare deductibles that are covered under these plans are expected to increase.
- **Impact of New Technology:** Improvements to medical technology and clinical practice lead to more expensive services increasing health care spending.

Administrative Costs

Expected administrative costs for these plans are similar to current administrative costs and are not contributing to the proposed rate increase.
